CONDUCT OF CPR LECTURE-DEMONSTRATION SERIES

In line with the celebration of National CPR Day 2026, the Philippine Red Cross- Zambales Chapter will be conducting a series of CPR lecture-demonstration for students of selected schools in our Schools Division Office.

The program aims to capacitate students and faculty to respond effectively during sudden cardiac emergencies.

To ensure no disruption to regular school operations, the Philippine Red Cross will provide all necessary training equipment and certified safety facilitators. Meanwhile, to prevent learning loss during the protected instructional block, the activity will be integrated during the MAPEH subject for approximately 20 minutes.

For reference, please see attached communication of the Philippine Red Cross-Zambales Chapter.

July 16, 2026

MR. WILLIAM RODERICK R. FALLORIN, CESO VI
Division Superintendent
Department of Education
Division of Zambales

Dear Sir:

Greetings of humanity from the Philippine Red Cross!

In celebration of National CPR Day 2026 and in solidarity with the nationwide CPR Caravan, the Philippine Red Cross Zambales Chapter is launching its annual **CPR Lecture Demonstration Series**, running from **July 17 to October 16, 2026**. Following the resounding success of last year's campaign, which equipped 10,912 students and community members with critical skills, we are scaling our efforts this year to deeply integrate disaster preparedness into our schools, ensuring that life-saving knowledge directly reaches school children across Zambales.

Giving our students and faculty the capability to respond effectively creates safer school environments. This high-impact session will focus **exclusively** on hands-only CPR, an essential, time-sensitive skill that drastically increases survival rates during sudden cardiac emergencies before professional medical help arrives.

In line with this vital mission, we respectfully request the support and endorsement of the DepEd Division of Zambales to bring these critical CPR Lecture Demonstrations to the schools under your jurisdiction. By opening your classroom doors, your office actively leads a movement that transforms our youth into a resilient shield of first responders.

To ensure seamless execution at no cost to your division, the Philippine Red Cross will provide all training equipment and certified safety facilitators. Furthermore, we strictly respect and align with the 'No Disruption of Classes Policy' (DepEd Order No. 09, s. 2005) and the Three-Term School Calendar Guidelines (DepEd Order No. 009, s. 2026) dedicated to optimizing instructional efficiency and supporting academic recovery. To completely safeguard 'Time-on-Task' and prevent learning loss, we propose integrating this life-saving demonstration directly into the existing MAPEH (Health) curriculum, limiting the entire session to a high-yield, 20-minute window.

Through this streamlined approach, we deliver vital emergency skills within regular class hours without creating any administrative burden. Together, we can cultivate a lifelong culture of readiness and take a monumental step toward building a proud, resilient, and CPR-ready Philippines. By utilizing this efficient approach, we can seamlessly deliver practical emergency skills during regular, relevant class hours without adding any administrative burden. Together, we can turn academic spaces into safe havens, cultivating a lifelong culture of readiness and taking a monumental step toward building a proud, resilient, and CPR-ready Philippines.
